

June 10<sup>th</sup>, 2019

Dear Parent/Guardian,

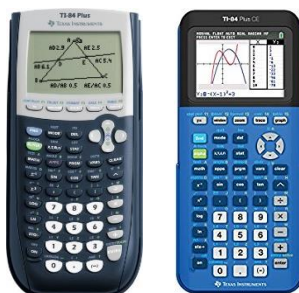

To help in preparation for Math 10C the Mathematics Department wanted to let everyone know the calculator requirements for the Combined Academic Route of Mathematics at Hilltop High School.

Math 10C is the academic stream of mathematics in Grade 10. It leads to Math 20-1 or Math 20-2 in Grade 11, both of which are academic courses. The required calculator for students enrolled in Math 10C is the TI-83 Plus, TI-84 Plus or the TI-Nspire CX (**NOT** the CAS) Graphing Calculator. These calculators can be purchased at Walmart, Staples, or online on Amazon.ca or you can often find them on Whitecourt Buy and Sell or Kijiji. These are graphing calculators and will be used in class regularly throughout Math 10C, Math 20-1, Math 20-2, Math 30-1 and Math 30-2.

**Math 10C TI-83 Plus**

**Math 10C TI-84 Family**

**Math 10C TI-Nspire**

**We do not allow** the use of phones as calculators during quizzes, tests or exams so it is important for each student to develop a proficiency on their chosen calculator in order to perform at their best.

If you have any questions or concerns regarding this information or regarding the Grade 10 math programs, please feel free to contact one of us via email.

Mathematically yours,

Katherine Fancy
